

BTS Fundraising 2008

In 2008 BTS conducted some fundraising for the Geebung Special School. The purpose of the fundraising was to purchase a special chair the school could use for students unable to support their own body weight. This chair allows these students to use the trampoline like any other student. The cost of this chair was \$1400 and through gold coin donations at time trials and our movie night in December we were able to raise the funds.

In February 2009, BTS fundraising guru, Sarah Hulme and I visited the school to present them with the cheque. The principal of the school Peter Blatch took Sarah and I on a tour of the school where we spent time with some of the children in their classrooms. Their learning is very much about teaching the kids to be independent. Basic life skills that all other children learn as part of their normal development such as feeding themselves, going to the toilet and holding a pen are a major focus for students at the Geebung Special School.

The photo is Sarah and I presenting the cheque to Will, of the students at the school. Thanks again to everyone for their support.
